

**Yellow warning
Snow & Ice**

Between
15:00 Fri 9 Feb 2024 and
18:00 Sat 10 Feb 2024

**Disruption from snow and ice is likely on Friday and Saturday.****What to expect**

- There is a small chance of travel delays on roads with some stranded vehicles and passengers, along with delayed or cancelled rail, bus and air travel
- There is a slight chance that some rural communities could become cut off
- There is a small chance that power cuts will occur and other services, such as mobile phone coverage, may be affected
- A small chance of injuries from slips and falls on icy surfaces
- A small chance that untreated pavements and cycle paths become impassable

Further details

Outbreaks of sleet and snow will gradually spread northwards across the warning area during Friday afternoon and through Saturday. Accumulations will vary from place to place, but some areas are expected to see 1-3 cm of snow through this period, and perhaps as much as 10-20 cm in some locations on higher ground (above about 300 metres). Ice will be an additional hazard. During Saturday, milder conditions will follow from the south with sleet and snow turning to rain.

What should I do?

 Very low likelihood of medium impacts

Yellow warning
Snow & Ice

Between
15:00 Fri 9 Feb 2024 and
18:00 Sat 10 Feb 2024

Further Details (continued)

Snowy, wintry weather can cause delays and make driving conditions dangerous, so to keep yourself and others safe: plan your route, checking for delays and road closures, amending your travel plans if necessary; if driving, leave more time to prepare and check your car before setting off; make sure you have essentials packed in your car in the event of any delays (warm clothing, food, water, a blanket, a torch, ice scraper/de-icer, a warning triangle, high visibility vest and an in-car phone charger).

Keep yourself and your family safe when it is icy. Plan to leave the house at least five minutes earlier than normal to reduce your risk of accidents, slips, and falls. If making a journey on foot, try to use pavements along main roads which are likely to be less slippery. Similarly, if cycling, try and stick to main roads which are more likely to have been treated.

People cope better when they have prepared in advance for the risk of power cuts or being cut off from services and amenities due to the snow. It's easy to do; consider gathering torches and batteries, a mobile phone power pack and other essential items.

Be prepared for weather warnings to change quickly: when a weather warning is issued, the Met Office recommends staying up to date with the weather forecast in your area.
